

Answer Key

Question Number	Question	Answer
1	Which of these are implementations of Naive Bayes in scikit-learn?	All
2	Naive Bayes is a non-supervised classification technique	False
3	Support Vector Machine can be used for	All
4	Support Vector Machine is a supervised learning model	True
5	Which tool generates graphical trees for visualizing the trees generated by DecisionTree algorithms?	Graphviz
6	scikit-learn module that implements DescionTreeClassifier is called tree	True
